

MR653-1384

Appl. No. 646,563

Reply to Office Action of 10 March 2004

IN THE CLAIMS:

This listing of Claims will replace all prior versions, and listings, of Claims in the Application:

Listing of Claims:

1. (Currently amended) A novelty comprising:

a central fan member defining a body representative in contour of a main body portion of an animal caricatured article and having at least one support to rotatably mount a fan; a lightweight fan rotatably supported from said at least one support and adapted to rotatively move subject to fluid impingement thereon and including a head member peripherally disposed relative to the body representative of a secondary body portion of the animal caricatured article in whimsical configuration.

2. (Original) The novelty in accordance with Claim 1 wherein an additional spaced apart support is operatively connected to said fan.

3. (Currently amended) The novelty in accordance with Claim 2 which includes at least one other appendages representative of the animal said caricatured article.
